

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

HERTFORD
PRINTED BY STEPHEN AUSTIN AND SONS.

PROVISIONAL INTRODUCTION.

THE CALENDAR printed in the following pages is a list of Wills and Administrations proved and granted in the Consistory Court of the Bishop of Worcester. The date of the earliest Will, of which there is only one, is 1439, but the series may be said to commence in 1451, which is the next earliest document now in existence.

The Wills, etc., at Worcester consist of transcripts and originals. The Transcripts are contained in 9 volumes as follows :—

Vol. I.	Containing Wills, etc.		1451-1495
II.	„ „		1509-1528
III.	„ „		1528-1539
IV.	Said to be missing.		
V.	Containing Wills, etc.		1545-1553
VI.	{ Part 1, containing Wills, etc. ... }		1554-1584
	{ Part 2, „ „ „ „ ... }		
VII.	Containing Wills, etc.		1585-1642
[VIII.]	„ „		1543-1553
[IX.]	„ „		1652-1739

Volumes [VIII] and [IX] have no numbers to them, but they may be so called for the sake of convenience. Vol. VIII it will be seen covers a small portion of the gap between Vols. III and V. Vol. IV is said to have been missing for a number of years, but there are doubts if there ever was a Vol. IV.

The Bundles of Original Wills, etc., are some 472 in number, and may be grouped as follows :—

8	Bundles containing Wills		1493-1546
41	„ „ „		1550-1581
70	„ „ „		1582-1652
353	„ „ „		1660-1858

The Official Indexes to these Volumes of Transcripts and Bundles of Originals are both intricate and defective. Intricate because they are apparently in duplicate and even triplicate (some of the Volumes of Transcripts having Indexes bound up with them) for portions of the periods specified; and defective, not only from being much worn by constant reference, but also because none of the earlier Indexes mention the Administrations at all.

The following is a list of the Indexes as now existing in the Probate Registry :—

1	Volume for the years	1493-1616	} Original Calendars.
1	"	" 1616-1651	
1	"	" 1493-1600	} Compiled by
1	"	" 1600-1622	
1	"	" 1600-1651	Sir Thomas Phillips.
1	"	" 1600-1651	A Modern Calendar.
19	Vols. of Act Books for 1661-1858		

The last nineteen Volumes are Act Books of Wills and Administrations. Each volume has an index at the commencement. There is the usual gap between 1650 and 1661, when all Wills, etc., were proved in London.

Besides these Indexes there is "A list of Wills and Administrations received by the Deputy Registrar from the Executors of the late Francis Greenbank and not entered in the Will Books," ranging between the years 1699 and 1752, and presumably not proved.

There are also two volumes of Indexes of the Wills, etc., proved in the Peculiar Courts within the Diocese, namely, one for the Peculiars of Alvechurch, Bredon (including the Chapelries of Cutsdean and Norton), Fladbury (including the Chapelries of Throckmorton, Stock and Bradeley, and Wyre-Piddle), Hampton-Lucy (including the parishes of Alveston, Charlecote, and Wasperton), Hanbury, Hartlebury, Ripple (including the Chapelries of Holdfast and Queenhill), Stratford-on-Avon (including the Chapel of Bishopton), Tredington (including the parishes of Shipston-on-Stour and Tidmington), comprising the years 1712-1788; and one for the Peculiar of the Dean and Chapter which

had jurisdiction over the following parishes: Berrow, Kempsey, Norton - juxta - Kempsey, St. Michael - in - Bedwardine, Stoulton, Tibberton, Wolverley, and the College Precincts, Worcester.

It will thus be seen that to make a search for the Wills of persons proved at Worcester is a very tedious and difficult matter, from the fact that several Indexes for the same periods have to be examined, which, being written in the old and crabbed writing of the office clerks of former days, is anything but an easy matter ; and, further, there is no certainty whatever about these Indexes being complete, no notice whatever being taken of the Administrations.

To remedy this most unsatisfactory state of affairs it has been the object of the Compiler of the Calendar now being printed, with the consent and approval of The Right Honble. Sir Francis Henry Jeune, K.C.B., President of the Probate Division, and of H. A. Franklin, Esq., District Registrar, to present as complete a list of *all* the Wills and Administrations and other official documents now preserved at the Worcester Court of Probate, which, when completed, will supersede the existing calendars.

Every one of the Books of the Transcripts has been gone through page by page, and the names of the testators, with their abodes and dates, noted. The Bundles of Original Wills, etc., have also for a certain number of years been similarly examined and will be continued as time goes on.

The various Indexes above mentioned have not been compared systematically with the list as here printed, it being thought that the heavy labour this would entail had better be left till the Bundles of Wills had been gone through and a list printed. Then it will be possible to ascertain whether all the Wills mentioned in the old Indexes are in existence either in the Books of Transcripts or in the Bundles of Original Wills.

It is said that the Bishops' Registers contain some Wills, the earliest being that of Sir William Beauchamp, dated 1268. These, probably, will be examined and the Wills they contain noted.

* The last figure of the year of probate is erased.

† NOTE.—The folios run continuously up to and including folio 80, when the next now remaining is numbered 87. There are the remains of six leaves still in the binding, which probably contained the Wills of the following persons :—

Smith, Thomas.	Benford, Robert.
Fisher, William.	Coton, William.
Court, Daniel.	Stoyte, Robert.
White, John.	

which appear in the original Calendar at end of the volume. On folio 87 are the last few lines of a Will which was proved "penult. Feb. anno predicto."

Likewise after folio 87 there are seven leaves similarly cut out, but they probably did not contain Wills as there are none in the original Calendar for these missing leaves.

‡ Addition to a Will dated 12 June, 1529, proved 14 Oct. 1529, but the Will itself does not appear in the book; perhaps it was on one of the pages which have been cut out.

* This Probate is ruled out.

† This Will is not finished and there is no date of proof. A page is evidently missing here, as the next one contains the last part of a Will of some person, dated 15 July, 9 Henry VIII, and proved 24 November, 1519, and also an Inventory of Margaret Thomas, widow, of Worcester, which probably belongs to the portion of Will mentioned.
